

Plans for Time-Travel Machines That 'really' Work: How to Move Through Time and Space

By Patricia C. Ress

By popular request we had to issue this special publication. . . HERE ARE ACTUAL PLANS FOR TIME TRAVEL MACHINES THAT YOU CAN CONSTRUCT, AND MOST PART ARE OBTAINABLE IN ANY HARDWARE STORE Many of the loyal readers of the Conspiracy Journal have written saying that they would like to obtain actual plans for time travel devices. They are not so much interested in the remote viewing methods but would like to enter and trave in a machine much like H.G. Wells did in his classical work. Of course to most this is highly theoretical at best...Many scientists still hold the topic in contempt. But at least one individual claims to have invented a number of devices which can be used for time travel and furthermore the parts are obtainable nearby where you live. We are not that principled in the subject to say if this is true or not, but researcher Patricia Ress has investigated the claims of inventor Steven L. Gibbs and says she has been personal confirmation that the claims of the "Rain Man of Time Travel" are highly credible. Segments include: + The Power of Resonance. + What is the Perfect Time Equation. + The Mystery Behind Vortexes. + The Number of Sub-Dimensions and How To Access Them. + Exploring the Belt of Odin. + How to Convert Any Vehicle Into a Fully Equipped Time Travel Device. There are numerous charts and graphs and you'll definitely have to put your thinking cap on for this adventure. But it may be the best journey you have ever undertaken!
